

# AMAR RAM

SOFTWARE DEVELOPER

8169914387

ramamar151@gmail.com

Goregaon East,Mumbai,  
Maharashtra

## PROFILE

Full-stack Software Developer with 1.5 years of experience in web application development.

Skilled in React.js, ASP.NET Core, and SQL Server for building robust, scalable solutions.

Experienced in resolving live issues and collaborating with cross-functional teams.

Focused on clean code, client satisfaction, and continuous improvement.

## WORK EXPERIENCE

### ■ May 2024 - Till Now

BitByBit Solutions (Client: IPS e-Services Pvt. Ltd., Mumbai, India)

#### Software Developer

- Spearheaded the development and enhancement of major applications such as the HamaraKendra Portal and the IPS corporate website, ensuring alignment with business objectives and user needs.
- Collaborated closely with clients and project managers to understand project requirements, plan technical solutions, and deliver feature-rich modules on time.
- Designed and implemented modular, scalable components using ASP.NET, React.js, and Microsoft SQL Server, adhering to clean code principles and best practices in software engineering.
- Actively participated in debugging production-level issues by integrating logging tools and tracing mechanisms, identifying root causes, and deploying timely fixes to minimize system downtime.
- Authored and maintained comprehensive technical documentation for new features, system architectures, and module configurations, contributing to project transparency and future maintainability.
- Conducted rigorous API testing using Postman, validating endpoints, handling edge cases, and ensuring seamless integration between front-end and back-end services.
- Fostered cross-functional communication by bridging technical discussions between development teams, QA testers, and clients to ensure seamless delivery and client satisfaction.

## EDUCATION

2021-2023

**PATKAR VARDE  
UNIVERSITY**

- Bachelor of Science in  
Information Technology

## SKILLS

- React.js,
- JavaScript, ASP.NET, ASP.NET Core, MVC, Web API
- Microsoft SQL Server
- Entity Framework Core
- Postman, Debugging & Logging
- ASP.NET, ASP.NET Core
- Tailwindcss, Material UI
- Remote server
- ASP.NET Web Api Core

## LANGUAGES

- English
- Hindi
- Marathi

## ■ January 2024 - May 2024

BitByBit Solutions – Mumbai, India

### Software Developer Trainee

- As a trainee I began working on internal mini-projects to understand the fundamentals of full-stack development workflows.
- Developed basic React.js front-end components to gain hands-on experience in building interactive user interfaces.
- Participated in team discussions and code reviews to strengthen foundational knowledge of client-side development.
- Studied real client project requirements to understand business objectives, user expectations, and technical architecture.
- Gained exposure to version control systems (Git), development tools, and collaborative workflows used in real-world software projects.
- Shadowed senior developers to observe best practices in coding, debugging, and communicating technical updates with project managers.

## ■ October 2023 – January 2024

BitByBit Solutions – Mumbai, India

### Software Developer Intern

- Underwent intensive hands-on training in software development fundamentals with a focus on both front-end and back-end technologies..
- Practiced building small-scale projects like To-Do lists and CRUD applications to reinforce core concepts in web development.
- Gained foundational knowledge of React.js for building responsive user interfaces and ASP.NET Core Web API for creating RESTful backend services..
- Explored full-stack integration by connecting front-end interfaces with backend APIs and handling real-time data updates using JSON and HTTP methods.
- Learned key development practices including version control with Git, code modularity, and debugging techniques.
- Regularly engaged with mentors and peers for code reviews, technical guidance, and collaborative development exercises to improve coding standards and workflow discipline.
